Dome reconstruction will begin in the next couple of weeks at the St. Croix Recreation Center. They will drop the dome to protect the field while other construction goes on. The dome will not be operational til the end of August 2019. When the new turf is ready, they will take the old dome off, lay the new turf and dome to the increased footprint. The rec center side of the building will be open and operational through construction.
Turf should be out of the Dome by end of the week of April 26th.
